

③ Docker Vs Virtual Machine

Operating System

Dockers

windows 10 and greater

Docker Image

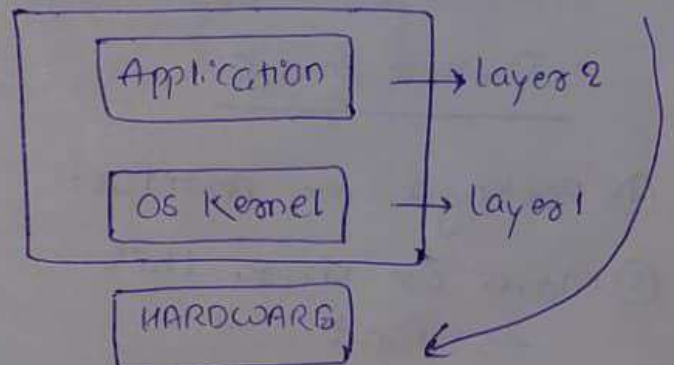

Linux

VM install

Application
OS kernel

VM

Dockers :- Docker Image size is usually smaller. (MB)

①

VM :- size will be huge. (GB)

Docker :- Docker containers start and run much faster.

②

VM :- VM is comparatively slower.

Compatibility

{ install VM on any OS }

{ Docker Image → compatibility issue }
